畜禽屠宰产品认证方案

Certification Scheme for Livestock and Poultry Slaughter Products

1 通用总则 General Provisions

1.1 编制依据 Basis for Formulation

整合五大主流清真屠宰标准：阿联酋 UAE.S993/UAE.S2055、马来西亚 MS1500:2019、土耳其 OIC/SMIIC 1:2019、印尼 SNI99002（禽）/SNI99003（反刍）、海湾 GSO993:2015；同步匹配各国主管机构法规：阿联酋 MOIAT 内阁令 10/2014、马来西亚 JAKIM 管控规则、土耳其 GIMDES、印尼 BPJPH 体系、GCC 海湾统一规范；形成多方案一体化屠宰认证体系，统一受理、审核、判定、发证、证后监督全流程。

Integrate five mainstream Halal slaughter standards: UAE.S993 / UAE.S2055, Malaysia MS1500:2019, Türkiye OIC/SMIIC 1:2019, Indonesia SNI99002 (Poultry) / SNI99003 (Ruminants), Gulf GSO993:2015; comply with national competent authority regulations including UAE MOIAT Cabinet Decree No.10/2014, Malaysia JAKIM control rules, Türkiye GIMDES, Indonesia BPJPH system and GCC unified specifications. Form an integrated multi-scheme slaughter certification system to unify the whole process of application acceptance, audit, judgment, certificate issuance and post-certification surveillance.

1.2 认证目的 Certification Purpose

1.区分五大出口市场屠宰合规差异，标准化活畜、屠宰、人员、隔离、消杀、仓储、标签全链条管控；

Distinguish slaughter compliance differences of five export markets, standardize full-process control covering live animals, ritual slaughter, personnel, segregation, sanitation, warehousing and labeling;

2.统一三级风险判定（一级重大 / 二级一般 / 三级观察），配套《屠宰认证风险评估指引》《现场审核检查表》；

Unify three-level risk judgment (Level1 Major / Level2 Minor / Level3 Observation), matched with Risk Assessment Guidelines and On-site Audit Checklist;

3.按目标国家出具独立专属哈拉证书，完成各国官方平台备案，保障肉类合法出口中东、东南亚、土耳其市场。

Issue exclusive independent Halal certificates per target country, complete official filing on national platforms to ensure legal meat export to Middle East, Southeast Asia and Türkiye markets.

1.3 适用范围 Scope of Application

适用牛、羊、鸡、鸭、鹅、兔合规畜禽屠宰、分割、冷链仓储企业；企业可单独申报单一方案，或同时申报多方案；多方案并行时厂区硬件、体系文件需同时满足所有目标国强制条款，每个方案分配独立注册号、单独发证，禁止一证多用。

Applicable to slaughter, cutting and cold storage enterprises of permissible livestock including cattle, sheep, chicken, duck, goose and rabbit. Enterprises may apply for a single scheme or multiple schemes simultaneously. For multi-scheme application, factory facilities and system documents shall meet mandatory clauses of all target countries; independent registration number and separate certificate shall be issued for each scheme, cross-use of one certificate is prohibited.

1.4 术语定义 Terms & Definitions

1. 泰斯米耶 Tasmiyah: 屠宰前单独诵念“奉真主之名”，禁止录音批量诵读；
Tasmiyah: Individual recitation of "In the name of Allah" before each animal; recorded batch recitation is prohibited;
2. 实体硬隔离：实心墙体，无互通门洞、塑料帘简易隔断不计入；
Solid Physical Segregation: Solid walls without connecting doorways; plastic curtain partitions are not recognized;
3. 可逆击昏：击昏不造成动物永久损伤、屠宰前仍存活；
Reversible Stunning: Stun without permanent animal injury, animal remains alive before slaughter;
4. MOIAT: 阿联酋工业和先进技术部；JAKIM: 马来西亚伊斯兰发展局；BPJPH: 印尼清真保障机构；GIMDES: 土耳其清真认证机构；GAC: 海湾认可中心。
MOIAT: Ministry of Industry and Advanced Technology (UAE); JAKIM: Department of Islamic Development Malaysia; BPJPH: Indonesia Halal Assurance Agency; GIMDES: Türkiye Halal Certification Body; GAC: Gulf Accreditation Center.

2 认证受理条件 Acceptance Conditions for Certification

2.1 主体资质 Enterprise Qualifications

1. 具备合法营业执照、畜禽定点屠宰许可、食品生产经营资质、排污与卫生许可；
Possess valid business license, designated slaughter permit for livestock and poultry, food production and operation qualification, pollutant discharge and hygiene permit;
2. 厂区拥有固定生产地址，可提供总部及各生产车间 GPS 定位信息用于官方备案；
Own fixed production premises and provide GPS location information of headquarter and all workshops for official filing;

3. 建立完整清真管理体系文件，包含质量手册、程序文件、专项 SOP、记录表单清单；

Establish complete Halal management system documents including quality manual, procedure documents, special SOPs and list of record forms;

4. 签署认证申请授权文件，法人及核心管理人员提供身份证件、护照复印件用于机构存档备案。

Sign certification application authorization documents, and provide ID and passport copies of legal representative and core management personnel for institutional filing.

2.2 硬件布局要求 Facility Layout Requirements

1. 厂区划分活畜接收区、待宰静养区、专用屠宰线、胴体分割间、清洗消毒区、独立清真冷库、非清真隔离封存区、废弃物处置间，全部区域采用实体墙体硬隔离，无开放式互通；

The factory shall be divided into live animal receiving zone, lairage resting area, dedicated slaughter line, carcass cutting room, cleaning and disinfection area, locked independent Halal cold storage, sealed non-Halal isolation area and waste disposal room. All areas shall be separated by solid physical walls without open interconnection;

2. 屠宰生产线为对应认证方案专属专线，不得承接非清真代宰业务；多条生产线必须物理完全分隔，工器具、转运设施、人员动线互不交叉；

The slaughter production line shall be exclusively dedicated to the applied certification scheme with no third-party non-Halal contract slaughter service. Multiple production lines shall be completely separated physically with no cross-over of tools, transfer equipment and personnel routes;

3. 冷库分区上锁管理，清真与非清真物料严禁混放；化学品库房、虫害消杀设施、人员更衣消毒通道配置齐全。

3. Cold storage shall be managed with locked zoning to strictly prohibit mixing of Halal and non-Halal materials; chemical storage warehouse, pest control facilities and personnel changing & disinfection passages shall be fully equipped.

3 五大国家屠宰认证方案分述

3.1 阿联酋 UAE 方案（UAE.S993 / UAE.S2055）

3.1.1 主管机构与标准 Competent Authority & Standards

主管：MOIAT/ESMA；核心标准 UAE.S993 伊斯兰屠宰、UAE.S2055 通用清真、内阁令 10/2014；同步遵循 GSO993 海湾基础标准

Authority: MOIAT/ESMA; Core Standards: UAE.S993 Islamic Slaughter, UAE.S2055 General Halal, Cabinet Decree No.10/2014; Comply with base standard GSO993.

3.1.2 核心屠宰强制条款 Core Mandatory Slaughter Clauses

牛羊严禁任何形式击昏（电击 / 枪击 / CO₂窒息全部禁止）；禽类仅允许低电压可逆电击，击昏 10 秒内立即屠宰，严禁击后死亡；

All stunning methods (electric/gun/CO₂) are strictly forbidden for cattle & sheep; only low-voltage reversible electric shock allowed for poultry, slaughter within 10s post stun, dead poultry after stun is Haram;

每只动物单独念诵泰斯米耶，机械屠宰每批启动前人工诵读，禁止录音替代；
Individual Tasmiyah per animal; manual recitation before every mechanical batch, recorded audio substitution prohibited;

屠宰切断气管、食道、双侧颈静脉，禁止完全斩首；

Slaughter cut trachea, esophagus, bilateral jugular veins; full decapitation banned;

自动屠宰设备必须提前向 MOIAT 书面备案；

Automatic slaughter equipment requires prior written filing with MOIAT;

追溯记录最低留存 24 个月；清真 / 非清真混库直接判定一级重大风险；

Traceability records retained minimum 24 months; mixed Halal/non-Halal cold storage = Level 1 Major Risk;

清洁用品严禁含酒精、猪源性成分；

All cleaning supplies free of alcohol and pork-derived ingredients.

3.1.3 人员、硬件特殊要求 Special Personnel & Facility Rules

屠宰下刀必须成年穆斯林；清真生产线专属专线，不得代宰非清真；全厂实体硬隔离；不合格品双人双锁隔离库房。

Ritual cutters must be adult Muslims; exclusive Halal slaughter line, no third-party non-Halal contract slaughter; full factory solid segregation; dual-lock isolation warehouse for nonconforming goods.

3.2 马来西亚 MS 方案 (MS1500:2019 JAKIM)

2.2.1 主管机构与标准 Competent Authority & Standards

主管：JAKIM；标准 MS1500:2019、马来西亚清真肉食协议；强制配备专职清真监督员全程盯控屠宰线

Authority: JAKIM; Standards MS1500:2019, Malaysia Halal Meat Protocol;

Full-time Halal Supervisor mandatory for whole slaughter line.

3.2.2 核心屠宰强制条款 Core Mandatory Slaughter Clauses

牛羊、禽类均可采用可逆低电压击昏，禁止气体窒息；击后必须存活，放血时长禽类≥180 秒；

Reversible low-voltage stunning allowed for all livestock & poultry, gas asphyxiation banned; animal must stay alive post stun, poultry bleeding time ≥180s;

屠宰员按产能配比配置：日产超 150 头牛每条线≥4 名穆斯林屠宰员；日产超 200 羊每条线≥3 名；

Mandatory slaughterman ratio by capacity: ≥ 4 Muslim cutters per line for >150 cattle/day; ≥ 3 for >200 sheep/day;

胴体死亡判定标准：瞳孔放大、无角膜反射、无持续出血方可分割；

Carcass death criteria: dilated pupil, no corneal reflex, no continuous bleeding before cutting;

机械屠宰需人工旁站补杀漏宰动物；

Manual backup slaughter staff required for automatic lines;

待宰静养：畜类最低 48 小时，禽类 ≥ 2 小时；

Lairage resting: livestock $\geq 48h$, poultry $\geq 2h$.

3.2.3 人员、硬件特殊要求 Special Personnel & Facility Rules

所有屠宰人员持证；厂区、冷库分区隔离；每月开展动物福利专项内审；标签必须标注屠宰方式（手工 / 机械）。

All slaughtermen hold valid certificates; zoned factory & cold storage; monthly animal welfare internal audit; label must mark manual /mechanical slaughter.

3.3 土耳其 SMIIC (OIC/SMIIC 1:2019 GIMDES)

3.3.1 主管机构与标准 Competent Authority & Standards

主管 GIMDES/OIC；标准 OIC/SMIIC 1:2019；屠宰时动物朝向麦加基布拉方向

Authority: GIMDES/OIC; Standard OIC/SMIIC 1:2019; Animals shall face Qibla (Makkah) during slaughter.

3.3.2 核心屠宰强制条款 Core Mandatory Slaughter Clauses

反刍动物禁止任何击昏；禽类仅允许水浴式低电压电击；禁用全部含酒精消杀产品；

All stunning prohibited for ruminants; only water-bath low voltage shock for poultry; all alcohol-based sanitizers forbidden;

屠宰全程刀具不得离开动物后重复切割；放血必须自然充分；

Knife shall not leave animal during slaughter for repeated cutting; natural full bleeding required;

屠宰前动物清洁，去除粪便污物；禁止屠宰晚期妊娠母畜；

Animals cleaned pre-slaughter to remove manure; late-gestation female livestock slaughter banned;

废弃物独立密闭通道，严禁回流加工区； 【English】

Waste transferred via sealed independent channels, no backflow to processing zones.

3.4 印尼 SN 方案 (BPJPH SNI99002/99003)

3.4.1 主管机构与标准 Competent Authority & Standards

主管 BPJPH/MUI；禽类 SNI99002:2016, 牛羊 SNI99003:2018；执行 HAS 清真保障体系

Authority: BPJPH/MUI; Poultry SNI99002:2016, Ruminant SNI99003:2018; Implement HAS Halal Assurance System.

3.4.2 核心屠宰强制条款 Core Mandatory Slaughter Clauses

仅禽类允许水浴电击，牛羊完全禁止击昏；气体击昏全线禁用；

Water-bath electric shock only for poultry; stunning fully banned for cattle/sheep; gas stun prohibited;

设备若曾加工猪肉，需 7 次全套深度净化后方可复用；

Equipment previously used for pork requires 7 full deep purification before reuse;

全程 HAS 追溯，原料、饲料严禁猪源性添加剂；

Full HAS traceability; feed & raw materials free of pork additives;

屠宰师需持有国家认证 Juru Sembelih 资质。

Slaughtermen hold national certified Juru Sembelih qualification.

3.5 海湾 GCC 通用方案（GSO993:2015 沙特 / 科威特 / 卡塔尔 / 阿曼 / 巴林）

3.5.1 主管机构与标准 Competent Authority & Standards

海湾标准化组织 GSO; GSO993:2015，所有海湾成员国统一基础标准，各国可增设更严本地要求

Gulf Standardization Organisation GSO; GSO993:2015 unified base standard for all GCC member states, each country may add stricter local rules.

3.5.2 核心屠宰强制条款 Core Mandatory Slaughter Clauses

优先无击昏屠宰；仅特殊场景允许可逆禽类电击；牛羊不接受任何击昏；

Non-stunned slaughter preferred; reversible poultry shock only allowed under special conditions; cattle/sheep stunning rejected;

屠宰动物朝向基布拉；禁止屠宰食粪类动物（AlJalala）；饲料全程清真可追溯；

Animals face Qibla; coprophagous AlJalala animals prohibited; full traceable Halal feed;

全生产线、工器具专属专用，严禁交叉使用；

Exclusive production lines & tools, cross-use banned;

官方检疫证随每批次货物；

Official quarantine certificate attached per shipment.

4 五大方案屠宰核心要求差异对比表

对比维度 Comparison Item	阿联酋 UAE UAE Scheme	马来西亚 MS Malaysia MS	土耳其 SMI ICTürkiye SMIIC	印尼 SNI Indonesia SNI	海湾 GCC Gulf GCC
牛羊击昏规则 Cattle/Sheep Stunning	严禁全部击昏 All stunning banned	允许可逆低压电击 Reversible low voltage allowed	完全禁止击昏 Full ban	完全禁止击昏 Full ban	优先无击昏，不接受牛羊击昏 Non-stu

					n preferred
禽类击昏规则 Poultry Stunning	仅低压可逆电击, 10s内屠宰 Low voltage only, slaughter ≤10s	低压电击允许, 禁气体, 放血 ≥180s Low volt allowed, no gas, bleed ≥180s	仅水浴电击 Water-bath shock only	仅水浴电击, 禁气体 Water-bath only, no gas	有限低压电击 Limited low volt shock
屠宰人员配比 Slaughterman Ratio	无硬性产能配比, 必须穆斯林 No capacity ratio, Muslim only	按日产能强制配比 Mandatory capacity ratio	成年穆斯林, 面向基布拉 Adult Muslim, face Qibla	持证国家屠宰师 Juru Sembelih	穆斯林专职屠宰员
待宰静养时长 Lairage Rest	畜 ≥6h 禽 ≥2h	畜 ≥48h 禽 ≥2h	畜 ≥6h 禽 ≥2h	畜 ≥6h 禽 ≥2h	畜 ≥6h 禽 ≥2h
追溯存档期限 Record Retention	24 个月	无强制年限, 建议 24 个月	无强制年限, 建议 24 个月	全程 HAS 永久归档	24 个月
酒精类清洁剂 Alcohol Sanitizers	严禁使用	允许合规低酒精配方	全面禁用	严禁使用	严禁使用
机械屠宰备案 Auto Slaughter Filing	必须 MOIAT 备案	无需备案, 配补杀人员	需机构审核备案	需 BPJPH 审核	GAC 备案
屠宰朝向要求【EN】Qibla Requirement	推荐, 非强制	无强制要求	强制朝向麦加	推荐	强制朝向基布拉

混库处置等级 Mixed Storage Risk	一级重大风险	二级一般风险	一级重大风险	一级重大风险	一级重大风险
标签特殊标注 Special Label Mark	证书编号 UAE 后缀	手工 / 机械屠宰标注	屠宰朝向说明	HAS 追溯码	GSO 标准标识

5 认证流程 Certification Procedures

1. 申请受理：企业提交申请表、资质文件、体系文件、厂区布局图，文审人员开展第一阶段文件评审；

Application Acceptance: The enterprise submits application form, qualification documents, system documents and factory layout drawings for Stage 1 document review;

2. 现场审核：审核组依据《阿联酋屠宰场专项审核作业指导书》及配套检查表实施二阶段现场审核，判定不符合项等级；

On-site Audit: The audit team carries out Stage 2 on-site audit in accordance with the Special Audit Work Instruction for UAE Slaughterhouses and supporting checklists, and classifies nonconformities by severity;

3. 整改验证：严重不符合项需二次现场复核；一般不符合项提交整改材料文审闭环；

Rectification Verification: Major nonconformities require follow-up on-site re-audit; minor nonconformities shall be closed via document review after rectification materials are submitted;

4. 认证决定：技术委员会审核全部资料，分配唯一注册号，按方案代码生成标准格式证书编号；

Certification Decision: The Technical Committee reviews all documents, assigns a unique registration number and generates a standard-format certificate number with corresponding scheme code;

5. 发证备案：签发对应方案哈拉证书，UAE 方案同步录入 MOIAT/ECAS 系统完成官方备案；

Certificate Issuance & Filing: Issue Halal certificate for the applied scheme; the UAE Scheme certificate shall be registered into MOIAT/ECAS system for official filing;

6. 证后监督：证书有效期 3 年，每 12 个月开展一次年度监督审核；到期前启动再认证流程。

Post-certification Surveillance: The certificate is valid for 3 years with mandatory annual surveillance audit every 12 months; recertification shall be initiated before expiry.

6 证书与编号管理 Certificate & Number Management

1. 证书编号固定格式: ABC-两位年份代码+四位系统随机注册号-方案代码;

Fixed certificate number format: ABC-2-digit year code + 4-digit

2. 方案代码定义: MS=马来西亚方案, SMIIC=土耳其方案, UAE=阿联酋方案;
system-generated random registration number – Scheme Code;

Scheme Code Definition: MS for Malaysia Scheme, SMIIC for Türkiye Scheme, UAE for UAE Scheme;

3. 同一企业初次多方案同时申请, 系统生成单一随机注册号, 分别后缀不同方案代码, 独立出具多张证书, 禁止一证多用;

If an enterprise applies for multiple schemes simultaneously for the first time, the system generates one random registration number with different suffix scheme codes, and issues separate independent certificates. Reuse of one certificate for multiple schemes is prohibited;

4. 证书仅限获证工厂对应厂区使用, 不得转让、拆分、挂靠至其他分厂或合作代工企业。

Certificates are only valid for the certified factory premises and shall not be transferred, split or affiliated to other branch factories or OEM manufacturers.

7 违规处置规则 Violation Disposal Rules

1. 严重违规: 存在违规屠宰、无资质人员操作、实质性交叉污染、冒用证书、标签使用禁忌品名, 直接撤销证书并上报属地监管机构, 12 个月内暂停该企业认证受理资格;

Major Violation: Irregular slaughter, operation by unqualified personnel, actual cross-contamination, certificate counterfeiting or forbidden wording on labels will lead to immediate certificate revocation and notification to local regulators, with certification application suspended for 12 months;

2. 一般违规: 记录缺失、标识不规范、消杀流程不完善等, 限定 15 个工作日完成整改并提交佐证材料; 逾期未整改暂停证书效力;

Minor Violation: Missing records, non-standard marking or imperfect disinfection procedures shall be rectified within 15 working days with supporting documents; certificate validity will be suspended if rectification is overdue;

3. 观察项: 流程细节优化类问题, 纳入下次监督审核重点核查项, 无需强制整改闭环。

Observation Items: Issues requiring procedural optimization will be listed as key verification points in the next surveillance audit with no mandatory corrective closure required.

七、附则 Supplementary Provisions

本方案属于机构受控体系文件，与《屠宰场专项审核作业指导书》《现场审核检查表》《认证风险评估指引》《非清真产品名称清单及禁忌词汇管控细则》《证书编号管理规定》具备同等管理效力；本方案随阿联酋、马来西亚、土耳其官方法规与标准更新同步修订。

This scheme is a controlled institutional system document with equal binding force with the Special Slaughterhouse Audit Work Instruction, On-site Audit Checklist, Certification Risk Assessment Guidelines, List of Non-Halal Product Names & Forbidden Terms Control Rules and Certificate Number Management Regulation. It shall be revised synchronously in accordance with updated official regulations and standards of UAE, Malaysia and Türkiye.
